Bust Measurements Guide:

First measure your underbust: Measure around chest and back in cm directly under the breasts. This indicates the size. Look for chart above for your underbust size (65, 70,..)

Next step is measuring your overbust: Measure over fullest part of the breasts and back, this indicates the cup size. Run down your selected underbust row to the cup size measurements (A,B,..)

This is a guide only. Every woman has her own unique shape that cannot be defined in any chart.
